Teacher Resource

Use this resource in your classroom to **start the conversation** around leadership through self-reflection and engagement with others.

① Consider

Have students individually consider the prompt inside the **blue** sketches.

Allow space for meaningful reflection, finding a seat outside or in a comfy position. This will help them engage with others for step 2!

② Collaborate

Now that everyone has thought about how they lead, it's time to share these experiences and hear from others!

Each **black** sketch has a prompt about leadership. Have each person find someone different for each box, and record the leadership actions they discuss.

By the end of this activity, everyone will have collected six examples of inspiring leadership from the people around them!
